alacarestobar

The Story Of Alaca

Hello, we are Cansu and Mustafa, the operators of this charming hotel and resto-bar where you are now. We met when I was a student in the Department of Political Science in Eskişehir. We think that we had a pleasant school life as two young people with academic dreams.

After graduation, we started working in corporate companies. Frankly, we were not very happy in this business life. Then we decided to put our ideals and diplomas aside and start life from scratch. Thus, our entrepreneurial adventure began in our early 20s. The town we chose for our new start was Alaçatı, one of Turkey's most popular tourist destinations. While creating Alaca, we knew that these things would not be easy, but we were both painters and masons! :) Now we are very happy that we have built our own lives and are able to make our decisions freely.

We are excited, we are youth!

We would like to thank all our guests for motivating us with their smiling faces this season as we completed our 6th year. Well, now that you support us as a part of this story,

We're glad you have too!

Have a nice holiday. :)
