The Story of Alaca

Hello! We are Cansu and Mustafa, the owners of Alaca Hotel & Restobar, where you are currently staying. Our story began when we were two young people studying Political Science in Eskişehir and dreaming of academic careers.

When the corporate life we stepped into after graduation did not make us happy, we decided to put our diplomas aside and start life over from scratch.

We gathered our courage, and our entrepreneurial journey began in Alaçatı in our early twenties. While creating Alaca, we put our effort into every corner of it, from its construction to its painting. Today, we are very happy because we have built our lives with our own hands.

We are excited, and we have youth on our side!

As we enter our sixth year this season,
we would like to
express our gratitude to all our guests
who have been a part
of our story and who motivate us
with their smiling faces.

We are so glad you are here!

Have a wonderful holiday :)
